ROLL-PACKER RP 7700

The Roll-Packer RP 7700

is appropriate ...

- ... for the compaction of pallets or other comparable wood fractions (10t of weight instead of 2t in one 40yd container).
- ... for the compaction of voluminous, bulky wastes of all types.
- ... for the compaction of reusable, valuable substance in a reliable, clean, cost-effective and economic manner.
- ... to save disposal and/or incinerating costs by removing recyclable waste and providing potential income.
- ... for massive cost savings with respect to disposal costs without additional labour.

Typ: RP 7700 "Jumbo"
