

KV40 SELECT SERIES BALERS

from Kenburn

KV40 BALER

Kenburn Select Series KV40 Vertical Baler provides a cost effective solution, without compromising on quality. Designed and manufactured in Great Britain for Kenburn, these machines are well built, simple in function and operator use, and represent outstanding value for money.

The Kenburn KV40 Baler is ideal for use in small retail outlets or industrial companies where space is at a premium. This baler is suitable for baling a range of materials including cardboard and soft plastics.

The machine is simple to use - just press the Start button and walk away. It also features a double push system, allowing the waste to breathe before re-compacting, allowing more waste to be compacted per bale. Its powered from a standard 13 amp single phase socket and doesn't start the motor at any time unless operating a function, making the machine more energy efficient.

SPECIFICATION

Motors: 1.1 kW (1.5HP) Electric Motor, 4 Pole, Single Phase, 240v AC, 50Hz, 6.69 Amps, IP44, 200 Uf/40 Uf Capacitors

Pumps: High Efficiency External Gear Pump

Cycle Time: Approx 56 Seconds

Ram Pressure: Up to 9900 lbs (4.5 tonnes) 4500kg

Cylinder: 70mm Bore x 40mm Rod x 710mm

Filtration: Oil type: 125 Micron Suction Strainer. EP 32 Grade Hydraulic Oil

Control: Intelligent relay fully adjustable for all materials c/w regulated power supply to 24v dc

Electrical Power: Standard 13amp 240v single phase 3 pin socket

DIMENSIONS

Loading Door Opening: 730mm x 420mm (28.75 x 16.5")

Loading Door Height: 665 mm (26.2")

Overall Height: 2070mm (81.5") Overall Depth: 620mm (24.4")

Overall Width: 865mm (34.1")

Depth with Door Open: 1340mm (52.75") Width with Door Open: 1600mm (62.99") Shipping

Weight: 290 kg approx dBa: 75

Bale Size: Approx 730mm wide x 500mm deep x 570mm
