

Vertical balers

B-series B3 Textile

WHERE SPACE IS LIMITED

The B3 Textile is one of the smallest balers in our machine programme. With a very small base area and a 230V connection, it is easy to locate.

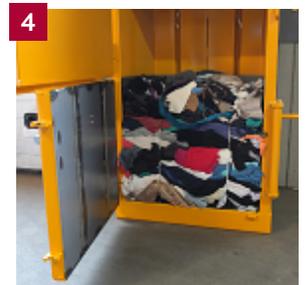

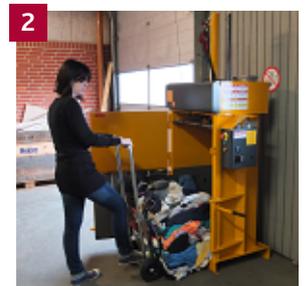

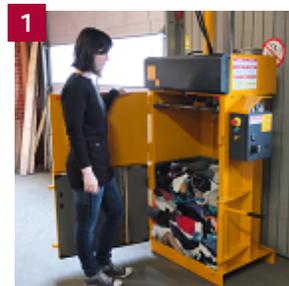

To ensure the chamber is not overloaded, the B3 Textile is equipped with a full-indicator which twinkles when the baler is full, and the press plate stays down.

Furthermore the baling process is simplified as the straps can be pulled directly through the main door.

Technical specifications

Press force (t)	3
Power supply	1x230V 50Hz 10A
Motor (kW)	1.1
Noise level (dB)	65-68
Cycle time (sec)	26
Dimensions WxDxH (mm)	845 x 745 x 1965
Weight (kg)	310
Filling opening WxH (mm)	700 x 460
Filling height (mm)	755
Chamber height (mm)	1100
Stroke (mm)	550
Bale size WxDxH (mm)	700 x 500 x 650
Bale weight cardboard (kg)	30-50

1 Compact your waste and eject the finished bale. **2** Remove and store the bale until collection. **3** A knife in front of the baler makes it easy to cut the straps to a suitable length. **4** There are no retainers or paint inside the chamber, to prevent damage on the clothes.

- **Simple and safe operation**
Green light twinkles when chamber is full.
- **Easy to replace strap rolls**
They are placed in front
- **Compact design**
With low overall height
