

Conveyor systems Flexible and powerful

■ Chain conveyor belt

Your advantages:

- ✓ Individual length adjustment due to modular construction system
- ✓ Conveyor belts for all requirements
- ✓ Strong, torsion-resistant construction
- ✓ Solid and compact design

Go for flexibility

You will get your conveyor belt optionally...

... as inclined conveyor belt to feed recycling plant and horizontal balers

... as sorting belt

... as bunker belt

■ Sliding belt conveyor

Reliable conveyor systems: AVERMANN conveyor belts are tailor-made for each individual application. Thanks to efficient laser-cutting constructions the belts are manufactured as modular system and thus the lengths can be

changed any time. Due to the use of different belt qualities, such as oil- and grease-resistant conveyor belts, even bulky material can be transported safely.
