

Horizontal balers HC30

FOR LARGE NEEDS AND LIMITED SPACE

The HC30 is suitable for larger retail shops, warehouses, industrial and logistical companies, who need a fully automatic and compact solution with high capacity. The design makes it superior where space is limited.

The compact design means that the HC30 only requires minimum floor space. It can be loaded continuously and the bales are tied automatically.

Technical specifications	
Press force (t)	30
Power supply	3x400V 50Hz 35A
Motor (kW)	11
Noise level (dB)	74
Cycle time (sec)	34
Dimensions LxWxH (mm)	3700 x 2040 x 2130
Weight (kg)	3700
Filling opening LxW (mm)	1030 x 950
Filling height (mm)	1450
Number of wires	4
Capacity (t/h)	0-2
Bale size LxWxH (mm)	1200 x 950 x 700
Bale weight cardboard (kg)	250-300
Bale weight plastic (kg)	300-350

1 The bale is tied automatically. **2** The finished bales are pushed forward. **3** Automatic, fast and reliable tying with minimum wire usage. **4** Strong and hard-wearing shear blade cuts the material.

- **Takes up little space**
Cylinders are placed at the side.
- **Fully automatic solution**
Bales are tied automatically.
- **Flexible output**
The bale length can be adjusted.
