## from Kenburn

### KV500 MILL SIZE BALER

Kenburn Select Series KV500 Vertical Baler provides a cost effective solution, without compromising on quality. Designed and manufactured in Great Britain for Kenburn, these machines are well built, simple in function and operator use, and represent outstanding value for money.

The Kenburn KV500 Vertical Mill Size Baler is ideal for use in large retail outlets or industrial companies and is suitable for baling a range of materials including cardboard and soft plastics.

The machine is simple to use - just press the Start button and walk away. It also features a double push system, allowing the waste to breathe before re-compacting, allowing more waste to be compacted per bale. Its powered from a standard 32 amp 3 phase socket and doesn't start the motor at any time unless operating a function, making the machine more energy efficient.
