- Fast cycle saves time
- 'Bale full' light when bale is finished
- SMART functions
- 24-month warranty

Europress Balex® is the answer to the demand for a high-quality Nordic baler. Balex balers are designed and manufactured in Finland at the Europress factory in Kerava. The sturdy machines can withstand heavy duty use. Balex balers represent Finnish innovation at its finest.

Balex balers are part of the Europress SMART baler family. Smart balers save costs and energy and are very environmentally friendly compared to traditional balers. Due to the intelligent SMART technology, they are resistant to wear and tear, causing less down-time in daily operation.

Balex-40 is perfect for small spaces and various materials. It operates quietly and boasts large feed opening. The design of the device has taken into account all effective and upcoming EU standards and amendments with regard to device safety.
